# Supplemental Copyright Evidence

## Instagram report 1056378363907479

**SUBMITTED BY** Hassan A Khalifeh
**REPORTED ACCOUNT** @elisaarruiz
**PLATFORM** Instagram
**ORIGINAL REPORT DATE** September 11, 2026

### Submission

This packet supplies the source photographs and video corresponding to the three Instagram carousel posts and two highlight collections identified in Report 1056378363907479. Each reported URL is followed by the complete source set associated with that post or highlight. The account screenshot establishes the visible Paris, concert, and Chicago post thumbnails; the side-by-side comparisons identify the three direct visual matches.

I photographed and recorded the works in this packet. I own the copyrights. I did not authorize the reported account to reproduce, publish, display, or distribute them. The reported copies must be removed from the identified posts and highlights.

### Requested action

Associate this packet with Report 1056378363907479. Review every item within each cited carousel and highlight, compare it with the source group assigned to that URL, and remove each matching photograph or video. Confirm in writing when the review and removal are complete.

**EXHIBIT A**

# Schedule of Reported Instagram Content

Each numbered entry identifies the complete source set assigned to that carousel or highlight. The assignment applies to the entire multi-image post, not only its visible cover.
