Capture metadata records August 19, 2026, Arizona local time (UTC-07:00). August 20 in the filenames corresponds to UTC. The claim is to the photographs, not the music or performance.

The following pages preserve supplied screenshots and pair each with the best available matching source. File-specific metadata and hashes are included. Capture metadata is reported as embedded; it does not independently prove authorship.

File integrity
The report package includes the supplied source bytes, preserved screenshots and a separate metadata JSON with file sizes, SHA-256 hashes and available capture fields. Displayed previews and this PDF are presentation derivatives. The original supplied bytes remain in the sources folder.

Limits
The reported post URL is the one associated with the existing post-specific evidence page. The supplied screenshots do not independently establish its address or current availability. No unknown carousel number has been invented. This evidence packet does not guarantee a platform decision.
